Significant national events do not occur in isolation

Concept Mapping

Tying it together for students

1. Students should first be introduced to factual content
2. Having learned details students use a concept map to tie events together using linking verbs
3. Students then add significant external and internal events into the concept map and tie events together using linking verbs
4. Students engage in a brainstorming session that develops questions focusing on the events and interactions

Cold War

o More than the East and West
